From February 2007 to Election Day, A.B. Data's direct marketing efforts helped to elect President Barack Obama, raising almost \$108 million in the mail from over 700,000 donors. As a result, A.B. Data has been reappointed to lead President Obama's 2012 direct marketing campaign in an attempt to gain re-election. As the sole administrator of the direct marketing campaign for Obama for America 2012, A.B. Data designs, prints, and mails each direct marketing piece to raise money and awareness about President Obama's candidacy and efforts for re-election in 2012.

Doctors Without Borders

In 2009, A.B. Data was chosen to manage all facets of the direct mail program for Doctors Without Borders/Médecins Sans Frontières (MSF). MSF is one of the most respected organizations in the world, having won the 1999 Nobel Peace Prize for their emergency medical humanitarian response to people around the world caught in armed conflict; suffering from epidemics, malnutrition, and natural disasters without access to health care. They are known for their fierce independence and their refusal to look the other way when a crisis is caused by the failure of a government, either through passive or aggressive actions. MSF raises \$84 million a year through the direct marketing program, and they mail 17 million prospect pieces annually. MSF's house file consists of 465,000 12-month donors and about 800,000 lapsed donors—and they have 38,000 monthly donors. MSF's total house file volume is 11 million a year.

Holocaust Victim Assets Litigation (Swiss Banks)—\$1.25 billion settlement

As a court-appointed notice administrator, A.B. Data played a key role in a worldwide Phase I notice that resulted in the processing of more than 500,000 initial questionnaires. In Phase III, A.B. Data delivered notice to over 10,000 Jewish communities in 109 countries, and administered international help and call centers in Phases I and III that personally assisted more than 100,000 potential claimants.

A.B. Data created a class-appropriate notice targeting Romanies (Gypsies) in 48 countries and directed hundreds of staff to communicate orally and directly with Romani communities and individuals. A.B. Data notified more than two million people and, as designated by the International Organization for Migration (IOM), directly assisted more than 22,000 Romanies in 17 countries of central and eastern Europe with claim completion.

German Forced Labour Compensation Programme (GFLCP)

As designated by the IOM, A.B. Data located more than 43,000 Romani survivors in 17 countries of central and eastern Europe who were potentially eligible for humanitarian aid. A.B. Data created a comprehensive database for the GFLCP and the Holocaust Victim Assets Litigation and directly assisted more than 11,000 Romanies in eight central and eastern European countries with claim completion.
